

DESERTION AND
BIGAMY CHARGE
ACKNOWLEDGED**Francis F. Floyd, Formerly of Dixon, is Held in Rockford.**

The honeymoon of Francis F. Lloyd, who held a position of motorman on the city line here last summer, and who was united in marriage to Miss Lucille Evelyn Hollister, aged 19, of Rockford on New Year's day, was brought to an abrupt close yesterday at noon in Rockford, when upon information furnished by Chief of Police Van Bibber of this city, the groom of a few days was placed under arrest by Chief Bargen of the Rockford department.

Lloyd is not only a confessed bigamist, but a deserter from the United States navy and is accused of other minor cases of which he is thought to be guilty. He is now held in the Winnebago county jail at Rockford, awaiting the action of the States Attorney's office of that county.

On New Year's eve, Chief Van Bibber received a telephone message from a man giving the name of Hollister, of Rockford, who informed the chief that his daughter was to be married the next day to a Frank Lloyd, who was said to have been a former resident of this city. The prospective father-in-law, who has been a special officer on the Rockford police force, had heard a rumor that Lloyd had been married before and had a wife living here.

Van Bibber, who once recognized the description and gave Mr. Hollister a history of the man as far as he knew. Despite the information given by Chief Van Bibber, Mr. Hollister allowed his daughter to be married to the stranger.

Chief Van Bibber then sent a description of Lloyd to Chief Bargen at Rockford. When Rockford papers gave Dixon as the groom's home, Lloyd called at one of the offices and gave out a statement to the effect that he had never been in Dixon. This public announcement was responsible for his apprehension.

Married Dixon Girl

Lloyd was married to Miss Helen Richardson of this city in Peoria in June, 1918, and a few months later deserted her while they were living in Kansas. His wife returned to Dixon after several months' absence. Lloyd came to Dixon, purchased household goods and with his wife went to house-keeping on East Third street. His wife told the police later of his having spoken frequently of his experiences as a fireman in the United States navy. Lloyd worked in local factories and also a motorman on the city street car line for several months last summer and then went to Rockford last fall and entered the employ of the street railway company of that city as a motorman, where he has since resided. His wife went to Canton, O., the couple having separated but not being divorced.

Different Name in Navy

Before parting, Mrs. Lloyd received a letter from the Great Lakes Naval Training Station, which informed her that she had been named beneficiary in the enlistment papers of George Henry Schneneman, a fireman in the navy, who had deserted and was wanted. She notified the police of this fact, adding that she had never known such a person, but suspected that it was her husband. Upon being questioned by the police, Lloyd denied having ever been in the navy, asserting that he had passed the age limit. Later the police received a communication from the Great Lakes station, stating that a deserter was going under the name of Lloyd, had been traced to Dixon, and was wanted by the naval authorities.

Correspondence with the naval station disclosed the fact that all of the original enlistment papers of the deserter had been lost, the only information remaining being the name of the deserter. Lloyd when questioned, stoutly denied having ever been in the navy. He told the police that his original home was in Granite City, Ill., and that during the time he was supposed to have been in the navy he had worked for S. M. Reynolds of Buffalo, Ill., a small town near Springfield.

Chief Van Bibber reserved the letters together with very good description of Lloyd, all of which were valuable in bringing about his apprehension. When Lloyd purchased a bill of furniture here, he failed to make his final payments and this added to his undoing. His bride of two weeks is heartbroken over the arrest and confession of her husband, who was a popular employee of the Rockford street railway company.

Came Here With Carnival

Lloyd came to Dixon about four years ago with a carnival company which remained here one week showing in the Gedney park lots in Dementown. He told the authorities yesterday that his right name was Francis Floyd Lloyd, but in securing his marriage license, he gave the name of Francis Frank Lloyd. He made a complete confession of his guilt yesterday admitting that he was a bigamist, a deserter from the navy and that he had not paid his furniture bill in Dixon in full. It is presumed that the Rockford authorities will turn him over to the Great Lakes station officials to be punished as a deserter.

Chief Van Bibber, Sheriff Schoenholtz, E. S. Rosecrans and John E. Meyer motored to Rockford yesterday afternoon in the interests of the case and upon their arrival learned that Lloyd had been arrested only a few minutes before and was being held.

All that happened in Russia in the revolutionary line has occurred since vodka was abolished. Whenever London goes dry her East End will arise."

SUICIDED WHILE WIFE WAS HELPING FAMILY TWICE HIT BY DEATH

Sterling Man Hanged Self Last Evening—Double Funeral This P. M.

When Mrs. Theodore Lansing of Sterling returned to her home early last evening after spending a short time at the home of J. W. Dunmore, an aged man who passed away early in the evening, two days after his aged wife had been called beyond, she missed her husband, who had been in the house when she left.

The rear door was open, and thinking he had gone to the barn Mrs. Lansing called from the kitchen porch. She received no answer, and at once started a search, which carried her through the barn and house, and which terminated in the cellar where she found her husband hanging by the neck from the joists. He had tied a rope to the strings and around his neck and had allowed his body to hang thus, death resulting from strangulation. It is believed his self-destruction was the result of worry over financial matters, as his wife states he had often expressed apprehension that he would not be able to carry out the terms of a contract which he had recently closed for the purchase of a home.

Double Funeral Today

Grief over the passing of his wife on Tuesday, is believed to have caused the death of Mr. Dunmore, who had been an invalid for twenty years. His remains and those of his life's companion were laid to rest this afternoon at Riverside cemetery in Sterling. The deceased were the parents of Mrs. Fred Coe, formerly of this city.

Mrs. Lansing is a sister of William C. Struckman, 1329 Palmyra avenue, this city.

WILL GUARANTEE ROADS' RETURNS FOR SIX MONTHS

By Associated Press Leased Wire
Washington, D. C., Jan. 9.—Continuation of the standard return to railroads for a period of six months after the termination of federal control was agreed upon today by senate and house conferees on railroad legislation. In fixing this date the conferees accepted the Esch bill provision. The Cummins bill would have limited the time to four months.

The memorial adopted by the National Shippers' Conference, opposing provisions of pending railroad bills, was presented to Chairman Cummins and Esch, of the senate and public interstate commerce committees today by Clifford Thorne, of Chicago. Mr. Thorne said shippers opposed creation of a transportation board, "any form of a permanent guaranty in the way of a definite percentage of return as prescribed in the Cummins bill; appropriation by the government of surplus earnings; compulsory construction of roads into a limited number of systems or the pooling of earnings of the carriers."

Shippers, he said, favored retention of unimpaired authority of the states over rates and service applicable to state traffic; legislation that would prevent a nationwide tie-up of the transportation systems; "quick" return of the roads to private control, and investigation by the Interstate Commerce Commission of the rail and water transportation facilities with a view to recommending to congress further development.

Fire was opened upon the two men, who were killed.

WILSON-BRYAN SPLIT CENTER OF INTEREST IN NATIONAL AFFAIRS

May Mean Big Fight in Convention at Frisco, June 28th.

By Associated Press Leased Wire
Washington, Dec. 9.—President Wilson's decision that the league of nations issue should be placed before the voters as a "solemn referendum," and Wm. J. Bryan's contention that the democratic party cannot go before the country on the question, but should accept such compromises "as may be possible" are the twin surprises of the convulsion of party chieftains which found its climax in the annual Jackson Day dinner.

The president's message to the party, written from the sick room in the White House, and read to the diners, made no mention of a third term for himself and no announcement of an impending retirement to private life as many had predicted it would.

Bryan Springs Surprise

Mr. Bryan's speech was accompanied by a statement that he was not speaking as a candidate for the presidential nomination. Many of the democratic diners freely said that portion was a distinct surprise to them.

"Today members of the democratic party are studying the opposite announcements of the two national leaders and are attempting to assess their effort on the party fortunes at the nominating convention which will be held in San Francisco June 28th and at the polls next November."

Too Early to Judge

Many political observers feel that it is yet too early to accurately estimate the position in which the cleavage between the president and the foremost democrat in private life leaves the party. They feel that stock must be taken and that the opinions of the rank and file must be sounded.

Whether the position of the two men, now definitely announced, means a fight in the national convention reminiscent of the spectacular battle in Baltimore in 1912, when Mr. Bryan forced the president's nomination and reversed the traditional practice of the party convention in giving a nomination to a candidate who commanded a majority vote, none of the party leaders is willing to predict for publication.

Sentiment Divided

Sentiment among the democratic leaders at the Jackson dinner seems to be divided between support of the president's decision and Mr. Bryan's position.

It was agreed that Mr. Bryan's argument that the treaty should be ratified with such compromises as may be possible will give a tremendous impetus to the get-together movement in the senate.

President Wilson's reiteration that there can be no reasonable objection to interpretation to "say what the undoubted meaning of the league is" is thought by some of those on both sides of the contest, may speed the movement.

G. O. P. Welcomes Test

Senator Lodge, the republican leader, and foremost in the fight against ratification of the treaty without reservations takes a wholly opposite view and has issued a formal statement declaring that the president's message makes impossible the view that the senate might compose its differences of opinion and ratify the treaty "protected by the principles set forth in the fourteen reservations."

An appeal to the people at the polls, the republican senate leader declared would to him be "most cordially welcome."

Effect On Treaty.

Senators disagreed widely today as to the probable effect on the senate treaty situation of President Wilson's Jackson Day letter urging that the question of ratification be carried into the presidential campaign.

Among the democrats generally it was declared the letter had not changed matters at all, and that the effort to agree on compromise reservations would continue. The mild reservation republicans thought a compromise had been rendered more difficult by the president's action, but said they did not consider that the door had been closed entirely.

A still different view was held by the treaty's irreconcilable foes, who declared Mr. Wilson's declaration apparently had established definitely that ratification would be a issue in the campaign.

FARMER'S PART THAT OF BALANCE WHEEL IN NATION

Oppressive Labor and Capital Must Be Checked.

By Associated Press Leased Wire

Des Moines, Ia., Jan. 9.—Consideration of and voting on the question of adoption of the constitution of the American Farm Bureau Federation was one of the more important matters on the program of the Iowa Farm Bureau Federation meeting here today. Amendments to the constitution of the state federation also were considered.

"The farmer through his national organization, must become the national balance wheel," J. R. Howard, president of the national federation said last night in speaking on the future of the organization and outlining what it stands for.

"Capital has always been oppressive and must be checked. Labor is rapidly becoming oppressive, defiant and antagonistic in its attitude. There will be strife indeed unless a national balance wheel is furnished. The farmer, through his organization, must become the national balance wheel," Howard said.

"Organized strikes must cease. Industrial disputes must be settled by compulsory arbitration."

"There is no room in public office for pussyfooting officials. The radical and the red must be deported."

About 1,600 delegates, from every county in Iowa are attending the conference. They represent an aggregate capital of \$128,000,000 in Iowa.

CHARGE OWENS IS AUTHOR OF PARTY BASIC DOCTRINE

Moline Communist is Held for Questioning in Chicago Today.

By Associated Press Leased Wire
Chicago, Jan. 8.—Federal agents continued their red raids last night, arresting two Russians at Argos on deportation warrants from Washington.

The men, who had been sought for a week, were taken at the headquarters of the Communist party at Argos. They are said to have been active in recent labor disturbances there.

State Attorney Hoyne today reserved questioning of Edgar Owens, state secretary of the Communist party, who was arrested in his home at Moline yesterday. Mr. Hoyne is also investigating a large number of papers taken in the raid. The papers are said to be the records of the Illinois branch of the party.

Owens is said to have admitted that he wrote practically all of the constitution of the Communist Labor party.

Five federal investigators who were taken ill while examining Reds yesterday afternoon were recovering today.

Investigation Suspended.

Investigation of radical activities here was suspended today because of the illness of Assistant United States Attorney John T. Creighton and four Department of Justice operatives who yesterday were stricken with a mysterious illness while in their offices. The offices were closed for fumigation. TO AID REDS' FAMILIES.

By Associated Press Leased Wire

Washington, Jan. 9.—The government has decided to render aid to the dependent alien radicals whom it deports. Assistant Attorney General Garvan announced today. Action in this direction will be taken purely as a humanitarian measure and not because of any obligations to the families of the aliens, he added. Federal agents have been instructed to investigate the circumstances of all families from which the government has deported the breadwinner, but Mr. Garvan warned that "no false sympathies would enter into the government's decision in extending assistance."

May Join Deportees.

It has not yet been determined through what channels provision will be made for the care of the persons left alone through the "folly of their family heads." It was indicated, however, that eventually, if the persons concerned so chose, they would be sent to join the deportees overseas. Officials felt that by sending those people away the nation would be freed from further trouble breeding.

Officials also said that much of the ground for possible reprisals would be removed if the families were finally sent to join their leaders.

While the government makes no provision for the families of persons sent to federal prisons, it was explained that deportation was a different matter and that because of its possible effect in Russia and other foreign countries it was worth while for the government to care for persons left here until provided as a result of deportation proceedings.

NEWS FROM DIXON

Wilson's team in the volley ball tournament at the "Y" gym at last won a match, when they rode over Wheeler's team for two out of three games last evening. Capt. Wheeler was unable to be present but his team put up a hard battle without him, however, Wilson's gang were too much for them, as they played a steadier and more consistent game. Wheeler took the lead at the start and carried it thru the first game which he capped 15-11, but Wilson came up in the second winning easily 15-7. The third game was a real scrap. Wheeler's crew coming up from way behind to battle out a 15-14 score.

The teams lined up as follows:
Wilson, Captain, Raymond, Rawls, Miller, Saxman; Kuhn, Acting Captain, Babin, Kent, Bates, Evans.

There will surely be some stepping in this game as Wilson with confidence inspired by last night's games will be out with his fur up, and Potter will have to travel to keep up with him.

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard-plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister. Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders, and yet does not blister the tenderest skin. Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears. Use Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest (it often prevents pneumonia). 30c and 60c jars; hospital size \$2.50.

GUEST DECIDED TO SAY—

A very young American called at the home of Mr. and Mrs. F. W. Teachout of Ottawa, Ill., this morning, and after looking around some he decided to make his home there. This is the fourth child in the family and the third son. Mr. and Mrs. Teachout have many friends in Dixon, their old home, who extend congratulations. Mrs. Teachout was before her marriage Miss Juelfs.

COMMUNITY CLUB NOTES—

It will surely be of great interest to the people of Dixon to know something of the work which has been done by the Community club during the first month of its existence and the good it has accomplished every day.

This work has been done by a few women, comparatively, under the direction of Dixon's great little mother, Mrs. J. M. McClary.

Over 500 people have been helped in various ways. Many of these are children who have been entirely outfitted with clothes from new shoes and stockings to overcoats, warm caps and mittens. To know a hundred children have been cared for is a great source of satisfaction to all who know the circumstances connected with every individual case. Thirty-two families have been aided and there are more who need mothering and these are at present receiving the attention of workers in the different churches and those who have volunteered to make a little dress or small pair of trousers for some little child.

Among those who have come to the attention of the club is a man who is in need of a pair of crutches for a time. Will some one kindly loan these articles, that he may be able to walk?

A woman who deserves honorable mention has come under the club's notice. She is a woman with nine children, a widow, and is now working in a factory to support her family. She has never asked for help but she was discovered and the mother instinct to assist this brave woman to do a little more than she is already doing as her time with her family is so limited. A little encouragement to such a one will give more faith in God and humanity.

The Christmas tree is a memory now but the Community club was its inspiration and made it a possibility.

It is hoped that a more general mother spirit will grow among the women of Dixon for there is much work to be done and all help will be appreciated. The Community club rooms is at 215 First street, second floor, telephone 515. Someone is at the room between two and four o'clock each day.

Searching Jails for Missing Chicago Girl

By Associated Press Leased Wire

Chicago, Jan. 9.—Calls of outlying jails were searched today in the hope that one might give up Miss Jeanne de Kay, aged 22, who disappeared nine days ago from Hull House, where she was a protégé of Miss Jane Addams.

Detectives began their search of the jails on the theory that she may have been caught in the roundup of Reds, which started simultaneously with her disappearance. Scores of the prisoners have not yet been identified.

Miss de Kay is the daughter of John Wesley de Kay, of Steinhof Castle, Luzerne, Switzerland. She arrived in the United States two days before Christmas and came to Chicago to join Miss Addams in special service work.

CHARGE OWENS IS AUTHOR OF CONSTITUTION

(Continued from page one)

retary, S. Nuorteva had claimed to have had successful dealings with American meat packing concerns in buying meats for Soviet Russia, despite the American and allied blockade of that country, were made before the senate agriculture committee today by Wm. R. Colver, of the federal trade commission.

Mr. Colver said he considered the circumstances "significant" since the owner of a local hotel where Martons and Nuorteva have been staying had been engaged in negotiating the purchase of the meat in question.

The trade commissioner made his charges while explaining other allegations that employees of the commission were under fire as "radicals" and "Bolsheviks." He said that Johann Ohso, a commission employee was called by telephone to the hotel where the soviet "envoys" were and that upon his arrival he was pointed out to local police officers as Martons. Ohso was arrested, he said, and turned over to the Department of Justice but later was released after being identified.

Mr. Colver also charged that former secret service officials at Chicago had "framed up" arrests of commission employees in an effort to create the impression that the commission was a "hot bed of Bolshevism." He said that H. J. C. Chaybough, former head of the Department of Justice's secret service and his assistant, a man named Barry, caused the arrest of Michael Malen at Chicago in the radical raid last week, though no warrant was issued for him by the Department of Justice. Barry, Colver said, "is a special agent for Swift and company." Malen later was released.

"CHIEF" IS REFUSED BAIL.
By Associated Press Leased Wire
New York, Jan. 9.—Gregory Weinstein, "chief of staff" of Ludwig C. A. K. Martons, Russian soviet "ambassador," has been refused bail and is being held on Ellis island, also \$10,000 in Liberty bonds, the bail requested for him by the Department of Labor, although he offered last night Charles Hart, his counsel, announced today. The reason given for holding Weinstein was that he refused to answer questions.

Weinstein has been called Trotsky's closest friend in the United States. Federal agents in arresting him on a deportation warrant asserted that he was the most influential Russian Communist in the United States, next to Martons.

THE WOMAN WHO LOVED--AND EARNED

By JANE PHELPS

A Modern Story of Home and Business

GERRY STAYS HOME WITH AUNT FELICIA.

CHAPTER 29.

"Carson Murphy had a raise last week. I met him on my way home, and he was so full of it he had to spill over. I guess he deserved it all right, altho he isn't any too clever.

Robert had been quiet for some time, and I had felt our talk was finished. "He's a hard worker Jane says."

"He doesn't work any harder than lots of others." Then, "He's appreciated, that's all. Then, too, he knows that Jane is dependent on him and so he has to bring in the dough."

"I wonder how much Jane earned teaching."

"A fair salary I've heard. More than Carson did when they were married. It's quite a story."

"Tell me about it."

"Oh, she promised to stop teaching when he got an advance! He hustled like the devil until he got it, and she kept her word."

"They live nicely."

"It doesn't cost them as much for rent and living as it does us here in the boarding house."

"But she does all her own work—washing and everything."

"I know," moodily.

"When I keep house I shall have someone do all that kind of work. I wouldn't mind cooking and keeping things tidy, but no washing or scrubbing for me. I loathe housework anyway."

"How do you know you haven't tried it?"

"I don't intend to."

Robert looked at his watch and with a muttered exclamation at the hour, he hurried off to work.

"Well, I'm glad that's over!" I said aloud, satisfied that it had been Glen Turner's advancement and Robert's disappointment that he had not been raised which had made him so unlike his play self.

"Isn't it wonderful that I can work?" I added as I thought of Robert's salary. I knew of course that someone had to do housework that there must be some women who could not earn money outside of the home. But it needn't be all women. Keeping house needn't take up a business woman's

life, any more than it did a business man's. Of course, incapable women—well, that was another thing!

Aunt Felicia had been rather "upish," as Robert expressed it, ever since our talk in which she told me I had made my bed and would have to lie in it, altho I never had allowed it to make any difference in my actions, toward her.

But I couldn't resist the temptation to "crow over her" a little, so I said:

"Robert and I have had a long talk. Aunt Felicia, and we have decided that it would be very unwise to try to keep house until he is doing better than he is now. He said until he could earn more he would rather I went right on at the shop." I did not add that he had said "so that I might have what I wanted and be happy."

"As I told you, he is very unselfish," she returned. "I felt inclined to be a little angry with him when I saw the pretty girl at the motion picture show with him; but when he explained how it happened I saw I was wrong to criticize."

"I wondered what he had told her. I am glad you have talked things over with him. I will go home far happier because of it."

I wanted dreadfully to ask her when she was going, but hadn't the courage. Robert needed a new suit, and I was beginning to begrudge what I paid for her room and board. Then, too, in other ways she was an expense to us. For a woman of her age, she wanted to go out a great deal. Naturally, one or both of us had to accompany her if she went anywhere in the evening. I insisted that it should be Robert, so was often alone during her visit—even more than before she came. For on the evenings we remained at home, he frequently made an excuse to stay or to go out after dinner. I asked him no questions, and often he said nothing about where he had been. I was afraid to know. I think, too cowardly to face the knowledge that he had been with Marion Hovey.

CHEERFUL STABLES FOR COWS.

(From the Springfield Republican.)

The fact that cows have tempera-
ment, a conception of orderly dwell-
ings, and a faculty of appreciating
courteous treatment has been discov-
ered, according to a news dispatch, by
Mrs. Ada F. Howie, a member of the
Wisconsin board of agriculture. "Cows
are sensitive to their surroundings,"
says Mrs. Howie. "Make the stable
cheery and beautiful and the cows will
respond with wonderful milk produc-
tion." Mrs. Howie has gone further
than mere affirmation; she has demon-
strated the truth of her theory. She
began by having her farm employees
speak cheerily to the cows in the morn-
ing when they went to milk. None of
the sleepy surliness of the average farm
hand for Mrs. Howie's cows! They
heard only cheery "Good mornings"
and pleasant inquiries as to how they
had passed the night. The cows were
gratified, their sensitive natures re-
joiced at this courteous treatment and
they responded by giving much more
milk and giving it cheerfully.

Later Mrs. Howie added a music ma-
chine to her milking equipment with
excellent results. Now she wants the
state board to put lace curtains on the
windows of the stables to be built for
the university of Wisconsin school of
agriculture, and to install porcelain
feed boxes and tint the walls an ap-
propriate and soothing cream color. When
the state board adopts her suggestions,
as it no doubt will, it is to be hoped
that it will not stop half way, but will
also provide a few good chromos for
the walls, sheaves of cat tails for the
corners and some wall flowers for the
shelves. Large crayon portraits of
grandfather and grandmother must not
be forgotten and a few albums and
copies of "Pilgrim's Progress" about
will help the home atmosphere. The
students in the school will take deep
interest in the idea, it is felt, and no
doubt there will be keen rivalry in de-
veloping the new system between the
squads that will greet the cows cheer-
ily in the morning and those that will
kiss them good night and hear them
say their prayers.

"STONE AGE STUFF."

Wilbur Voliva, overseer of Zion City,
Ill., has this to say:

"No woman is entitled to bear
rule or to be placed in authority.
I will not allow any woman to
come on the platform and preach
or teach. Let the women keep
silent in the churches."

Voliva will, however, permit women
to—
"Stay at home and mend socks,
wash dishes, knit and darn, cook,
and keep her home and children
clean and tidy, and she can be an
angel of mercy to the sick and
distressed."

In other words, the ruler of the
Zionites would have women do all of
those things men do not want to do,
and do none of those things men want
to do.

That is the way men talked in the
stone age, and up to recently. It is the
way few thinking, honest men talk
today.

WHY EGGS ARE SCARCE.

Uncle Sam's weekly market report
reveals the fact that when 1919 ended
there were 20,122,660 dozens of eggs in
American storage plants at the five
principal egg-selling centers. This is
just twice as many as were in storage
Dec. 31, 1918.

Because there are so many eggs
locked up there are fewer in the gro-
cery store, and because there are fewer
at the store the housewife pays more
for the eggs she buys.

Figure it out for yourself. The more
eggs in storage, the less in stores, and
the higher the price.

Berlin Socialists have about decided
to strike in protest against high prices.
In other words, stop production to low-
er prices that are kept up by under-
production.

You get a hot fire quickly with Gas
Luse Oiler.

making.

My statement will refer to the annual
reports for the years 1915, 1916 and
1917. I was superintendent in the year
1918 until September of that year. I
have at hand a copy of the annual re-
ports for each of those years. In those
reports I find that only the legitimate
cemetery funds of the cemetery were
used in liquidation of the expense for
the cemetery. It is true you will find
reference to the use of contingent fund
money, but in every instance you will
find in each year, repayment to contin-
gent fund by cemetery funds. Contingent
fund money was only used when the
cemetery collections at times were not
sufficient to meet current expenses. At
the end of each year the contingent
fund was reimbursed by legitimate cem-
etry fund.

By legitimate cemetery funds I mean
such funds as has been authorized by
ordinance of the city. Such funds, by
ordinance, are directed to be used in the
care, maintenance and improvement
of the cemetery. Not any part of the
city taxes is used in the cemetery
funds. In annual reports you will find
the funds, Oakwood cemetery lot sales,
old and new. By inspection of those
funds we find that in the year 1915, at
the commencement of that year we had
on hand of cemetery funds, \$1,402.90.
At the end of the year, April, 1916, on
hand, \$1,739.14. For the year, 1916, at
commencement of that year we had on
hand \$1,739.14 and at the end of the
year we had on hand \$2,074.70. For
the year 1917 at commencement of that
year, there was on hand \$2,074.70 and
at the end of the year we had on hand,
\$1,878.46.

In conclusion I will state that not a
cent of the taxes of the city has been
used. The cemetery was amply able
to get along on its own funds.

Held Up So Often He
Dared Bandits to Shoot

By Associated Press Leased Wire
Chicago, Ill., Jan. 9.—When six
bandits with revolvers drawn, rushed
into the jewelry store of Otto Neraid to-
day and commanded him to open the
safe, Neraid refused, saying:

"Go ahead and shoot. I've been rob-

that I'd just as soon you would."

Whereupon Neraid was felled with a
blow and with two clerks was held in a
rear room. The bandits took jewelry

LLOYD GEORGE'S
IRISH PLAN HELD
TO BE DANGEROUSIrish Unionist Party,
Thinks He Made an
Honest Effort.

By Associated Press Leased Wire

Dublin, Thursday, Jan. 8.—(Delayed.)
Premier Lloyd George has put a
"dangerous weapon in the hands of de-
clared enemies of the empire," in fram-
ing his Irish home rule bill, according
to resolutions passed by the executive
committee of the Irish Unionist party
here today. Recognition was given
the fact that the premier had made "an
honest endeavor to settle the Irish
problem," according to English ideas,
but the committee went on record as
"feeling bound to inform him his pro-
posals, instead of bringing peace and
contentment to Ireland, would still fur-
ther accentuate and embitter present
difficulties between different sections of
the Irish people."

Every party and sect in Ireland con-
demns the premier's proposals and the
"present unhappy state of the coun-
try" is simply the natural result of
many years of maladministration, the
resolution says. The only way in
which Ireland can be "saved from civil
war and anarchy," it is stated, is to es-
tablish a union form of government.

Snake Hollow Oil Field Makes Many Rich in Short Time

Natural Gas at the Rate of 100,000,000 Cu. Feet a Day Recorded.

By Associated Press Leased Wire
Pittsburgh, Jan. 9.—Spouting natural gas at the rate of almost 100,000,000 cubic feet a day, the Snake Hollow field, which is not yet four months old, already has made a large number of persons comfortably rich, while some thousands of others are anxiously awaiting the outcome of their subterranean gamble in more than 200 wells where the drills are kept going day and night.

The development, which became apparent when a strong flow of gas blew the top off a derrick on Sept. 28 last, covers no more than 100 acres of town lots in the outskirts of the thriving little city of McKeesport, 16 miles from Pittsburgh. Efforts are being made by important oil and gas interests to extend the field. If these test wells, now being drilled, come in gushers, an important addition to the gas producing territory of Allegheny county will have been found. If they are "dusters" geologists say, it will not be long until Snake Hollow will be a thing of the past, and dreams of wealth be nothing more than memory.

Rock Pressure, the measure of natural gas at the well, was 1600 pounds to the square inch when the first well came in. This pressure, experts say, has now been reduced to 800 pounds, indicating that already the field is beginning to decline. However, there are some 20 good wells in the field, and every well which reaches the Speeslych sand where the gas is found, comes in a gusher good for 5,000,000 to 10,000,000 cubic feet. This cannot last, for the wells are drilled so close together that the pool will be exhausted very soon unless it is found to extend over a much wider area than that now producing.

Regular Boom District
But while it lasts Snake Hollow is taking on all the features of a boom district where fortunes are made overnight. Steep hillside lots which six months ago could have been bought for a song have sold for \$10,000, and leases, covering spaces not big enough to hold a drilling equipment, have brought half that sum. Churches have leased their back yards, and schools have given over their playgrounds to the driller for a consideration. In one instance the township board of education leased school property, getting \$5000 down and 30 per cent of what the drill might find. The lease of an amusement park was sold for \$160,000. A year ago the land, surface and all that might be under it, could have been bought for \$300 an acre.

The amount of money already invested in the field is placed by bankers at \$20,000,000. This is due to the high cost of everything, from drilling, which reaches about \$20,000 a well, to commissions of stock salesmen who are handling the securities of the 170 companies now in the market. The most profitable concerns, however, are close corporations, and some of their shareholders have been paid many times over the amount of the original investment.

The gas bearing sand is from 3000 to 3200 feet below the surface, with the average well 3100 feet below. Pipe lines have been laid to some of the most important holes, and work is being rushed, day and night, on others. There is everywhere in the field a feverish desire to get the gas out and the money in with the least possible delay, and while some people are getting some money, experts say that a whole lot of investors and speculators are going to be disappointed.

COMES TO DIXON FOR ANSWER TO QUESTION

Dr. William Holderby Will Spend Two Days in This City.

Have the fifty thousand American soldiers, who gave their lives beyond the seas that the world might have freedom, died in vain?

That is the question for which the Rev. William Matthew Holderby, of Chicago, general secretary of the Family Altar League, has come to Dixon to find an answer. The "fighting parson of the Prairie Division" will give a series of whirlwind addresses on Sunday and Monday, in which he will tell of his experiences in the army camps, and will put the summons to the people to make good the challenge of the heroic dead to make this the greatest nation in the world in righteousness, justice and good deeds.

"One generation can destroy America," says Dr. Holderby. "Unless each generation receives the heritage of its fathers as a sacred trust to be perpetuated and added to, it can destroy the fruits of a century. In other words, if the true principles of Americanism, respect for law and order, maintenance of those elements of justice, freedom and clean living, which have been handed down to us from the sacrifices of the revolutionary war, through the bloodshed of the Civil war, and now through the consecration of the world war, are to live forever, they must live in us.

"Our plea, therefore, is for the things that make America great. Dangers are at hand. A noted Chicago physician asserted the other day that we are a dying race. Crime is more rampant than ever. Divorce and insanity are increasing with amazing rapidity. The class spirit is rising until it seems a red tide at hand. All sorts of dangers menace us, but the worst from within—fast and loose living, disrespect for law, no use for God. They have destroyed other great civilizations and they can destroy ours.

"Therefore I am here to plead for the fundamentals of American life—the home, the school and the church. When they break, the nation goes. The church for a long time has been losing. Now the home life is in great danger. Less than fifteen per cent of the 3,000,000 people in Chicago own their homes. The rest are renters, for the most part living in flats. Many are good citizens. Many are not. But it all tends to break up that home spirit that makes for the real family.

"The bolshevists and others who menace the nation are men without family ties, wanderers, irresponsible, with nothing to tie them to responsibility. They have nothing to lose. The people who have always, and do now, form the backbone of the republic, the God-fearing, law-abiding citizens, who love their families, their homes, their state and their nation, have the supreme task of preserving America. And in doing it, they can do nothing better than go back to the principles of our fathers—belief in America and America's destiny, faith in God, religion in the home and every day life, and strenuous endeavor to live the lives that good citizens should. If we do not, and America loses her vision and her place of service in the world, then then noble deeds of the men who lie sleeping in France will have been but useless."

The Family Altar League seeks an open Bible in every home, with a daily service of scripture reading and prayer. It plans state-wide campaigns, with sub-organizations by counties and townships in order to reach all the people with its appeal. The Rev. Dr. Holderby is known especially throughout the camps of Texas, where he conducted tabernacle meetings where hundreds of soldiers were converted. He is also former pastor of a large institutional church in Philadelphia.

STATE UNIVERSITY IS ALMOST CENTER STATE

The University of Illinois is almost in the center of the state, being but 50 miles northeast of the geographical center. It is 125 miles south of Chicago, 118 miles west of Indianapolis and 164 miles northeast of St. Louis.

WHAT NEXT?

WHAT NEXT?

Well, we have 40 cards up our sleeve, but the main thing now is to sell and make room. The Eckburg stock is here, the merchandise part of the Leake stock is here and thousands of dollar's worth of Dry Goods, Men's Furnishings, Shoes, etc., bought and on sale at enormous savings.

We are going to literally tear this store and stocks upside down—that is, if we can upside it any more than it is. Then we're going to piece by piece, some way put it back together again so there will be more room and system. I'll say there's method to our madness.

This store the past year has been especially noted for the big business done, the cyclonic, harum skarum layout, the real bargains dispensed and the quality. Our 1919 business hit close to the quarter million dollar mark and still going up.

Socialists' Charges Characterized 'Absurd'

By Associated Press Leased Wire

New York, Jan. 9.—The statement of the five suspended Socialist Assemblymen alleging collusion between the joint legislative committee investigating seditious activities and a representative of the British government in the search last June of the Russian Soviet bureau, is "absolutely untrue and has no foundation in fact," Archibald T. Stevenson, special counsel for the committee, declared here today. "The statement is absurd," Mr. Stevenson added. Deputy Attorney General Berger also declared it "absurd."

No formal reply by the committee is being considered, it was said here.

Corn Closed Weak After Short Rally

By Associated Press Leased Wire

Chicago, Jan. 9.—Selling on the part of seasonal traders who were endeavoring to anticipate a break in prices not unusual at this time of the year had a bearish effect today on the corn market. At first, values showed an upward tendency owing to continued scarcities of receipts and to higher quotations on hogs. Bears, however, were soon in control, and attention to the calendar became general. Opening prices, which ranged from ½¢ off to ½¢ advance, with May 1.36½ to 1.38½ and July 1.34 to 1.34½, were followed by a decline all around to well below yesterday's finish.

Oats weakened with corn. Speculators led the selling. After opening unchanged to ¼¢ higher, including May at 84½ to 85, the market underwent a moderate setback. Provisions were lifted by the strength of the hog market. Owing to grain weakness, however, the advance was not well maintained. Subsequently, commission houses absorbed the offerings, and brought about upturns, which however, failed to last. The close was weak, ¼¢ to ½¢ net lower, with May 1.35½ to 1.35½ and July 1.33½ to 1.33½.

Man and Wife Held for 'Revenge' Murder

By Associated Press Leased Wire

Rochester, N. Y., Jan. 9.—Alleged actors in a tragic triangle of love and revenge, James L. O'Dell and his wife, Pearl, today were charged with murder in the first degree, the victim being Edward Kneip, whose body marked with many bruises and stab wounds was found yesterday underneath a culvert on the Mosquito road near here.

Charles H. Scherer and Edward Spink were held as witnesses. Scherer was the driver of the taxi-cab in which O'Dell and his wife and their alleged victim were driven to the scene of the crime. Spink was Scherer's companion on the ride.

The police say they have confessions from both O'Dell and his wife. According to these, the motive for the crime was revenge for alleged relations between the young woman and Kneip two years before her marriage to O'Dell.

REMAINS TO SPENCER, IND.

The body of John A. Langston, member of the faculty of the Mt. Morris college, who passed away early yesterday morning at the hospital, was sent to Spencer, Ind., this afternoon. Two brothers arrived early this morning and took charge of the remains. The funeral and burial will take place in Spencer tomorrow.

George La Franz, aged 17 years, of Kankakee, died at the state colony this morning at 6 o'clock, death being due to epilepsy. The young man had been a patient at the hospital since Nov. 25. The body was taken to the Staples-Moyer & Schumm mortuary, where it was prepared for burial and will be taken to Kankakee for burial.
